

ULTRA SEAT CORPORATION

ULTRA SEAT DISPLAY BASE

Our Ultra seat display bases are a great way to showcase your seats.

Use the tall base for static seats and seats with low profile suspensions to give them an appropriate mounted height for customers to try out.

Or use our short base for taller suspension seats or pedestal style seat to give them just that little bit of extra height while on display and to give your seats a clean professional showcase look.

Our display bases are constructed from a light weight 5mm aluminum and are powder coated in a medium grey color.

They are designed with a sloped face appropriate for a display or information tag regarding the product being showcased.
