“Z” BAR MOUNTING BRACKET

The pictures to the right are 2 examples of the typical way that "Z" Bars mounting brackets are installed.

The installer is not limited to these mounting examples, these are just to be referred to as a guide.

The installer can use any of the mounting holes located on the "Z" Bars, Slide Rails and/or seat bottom to obtain the desired mounting pattern.

Please visit www.ultraseat.com for more information regarding this product.
