

LOW BACK SEAT COVER KIT INSTALLATION GUIDE

1. Remove arms according to your seat instructions. If no arms are present, move to Step

3. Pull lower portion of the seat cover down around the seat cushion ensuring the elastic is fully under the seat cushion and not sitting on the edge.

2. Slide the cover over the upper portion of the seat, making sure the document pocket is aligned on the back of the seat.

4. Fasten buckle behind seat in desired position and cinch strap until tight to create a snug fit.

5. Reinstall your seat arms according to your seat instructions.

Low Back Cover Kit installed on an M432 Series Seat.
